THE PLANS APPROVED

FOR THE G T P. LOCATION

Cabinet Approves Proposed Route for Considerable Distance West from Portage La Prairie

Ottawa, 4.—The plans of the Grand Trunk Pacific for the location of their road from Portage La Prairie, 275 miles westward, were approved by the Cabinet today. From Portage La Prairie the Grand Trunk Pacific will almost parallel the line of the Canadian Pacific to a point a little west of McGregor, and then proceed in a straight line west to the Assiniboine River. It runs about half way between the Manitoba and Northwestern lines for some distance west of McGregor. It is located between 11 and 13 miles north of Brandon and a little south of Rapid City. There will be a spur line to Brandon. The Grand Trunk Pacific will cross the River near Crowe. From Crowe it runs due west to township 28 range 13 and crosses the second meridian a little north of Summer.

THE GREATEST YET.

Fort William, Aug. 4th.—To be here for the purpose of conducting the final preparations for the greatest race in the history of the world, said Superintendent Price yesterday regarding the coming shipment of grain.

FADING HOPES OF PEACE.

Peters, Aug. 4th.—The prevailing view over the Washington peace conference is pessimistic. This sentiment is increasing now that the war elements are in complete ascendancy at St. Petersburg.

MAYORALTY VACANCY.

Dartmouth, N.S., Aug. 4th.—The city is without a head. The Mayor has mysteriously disappeared. He appears to be in debt to the extent of \$75,000.

TO VIEW THE ECLIPSE.

Winnipeg, Aug. 4th.—A party of eminent scientists will come here to view the eclipse of the sun from Winnipeg, learn, take Manitoba.

NEW COLONIZATION SCHEME.

Atlantic City, N.J., Aug. 4th.—The Supreme Court of the L.O.O.F. has endorsed a plan for the purchase of the tracts of land in North-west Canada, for settlement by members of the order.

FROM FORT ST. JOHN

Mr. Geo. A. McLeod, who left last January with the Macdonnell government exploration party, for Fort St. John on the Peace River, in B.C., has returned to the city. To the Bulletin Mr. McLeod stated that the crops in the Peace River district are excellent. At Peace River Crossing about 6,000 bushels of wheat will be harvested and nearly 20,000 bushels in the Vermilion settlement. The police party that went up to and cut out the Yukon trail from Ft. St. John are getting along rapidly. They have their barracks almost completed and had twenty-three miles of the trail cut out when he left on June 25.

The government exploration party have several acres of experimental crop in at Fort St. John, chiefly vegetables, and it is doing well. They had new potatoes a month ago. The prairie is looking fine and grass is abundant. The Hudson's Bay Company's new steamer "The Peace River" which plies between Vermilion and Fort St. John, a distance of 200 miles is a boon to passengers in the far north. The boat is fitted up for forty saloon passengers in the most up-to-date fashion. The Catholic mission is building a new steamer to ply on Lesser Slave Lake. The hull of the boat is now completed.

A G. T. P. party have completed their exploration survey to the summit of Wapiti pass in the mountains and the party is returning over the route. Quite a few prospectors are looking over the country.

Mr. McLeod will leave for Fort St. John about September 15. He says that politics has penetrated even that country and the question of a Peace River representative in the new legislature of Alberta is a live topic of discussion up there.

A SERIOUS ACCIDENT.

FELL FROM THIRD STORY OF EMPIRE BLOCK

A Lather named St. Clair Meets With an Accident Which may Prove to be Very Serious—Unconscious in the General Hospital

A young man named St. Clair happened with a very serious accident this forenoon. He was working as a lather in the third story of the Empire block when in some way he lost his footing and fell through an open space left for a stairway. He landed on some joists erected as a landing for half of the first stair, and hung suspended from this frame work head down.

He was immediately removed to the general hospital, and Dr. Park was called in. It was found that one thigh bone was broken and the victim is suffering from concussion of the brain. He is still unconscious and it is impossible to tell what his chances for recovery may be.

The parents of the unfortunate young man live a few miles up the river and word has been sent to them.

LOCAL

—An eclipse of the sun occurs on Aug. 30th.

—The monthly meeting of the Ladies Public Hospital Aid will be held in All Saints school room on Monday at 3 p.m.

—The weather has been quite warm in all districts, bright and dry in Alberta, scattered showers in eastern Saskatchewan and in Manitoba. A hailstorm is reported in the Minnesota district. The weather in Manitoba and the Territories will likely be fine today and Sunday and moderately warm.

—From the standpoint of the little ones the centre of attraction today is the Coma's miniature animal circus and trained animal show. The parade drew an interested crowd to the down town district this morning and this afternoon there is an audience of goodly proportions under the tent on Queen's avenue. The show has a good reputation and will doubtless have another large crowd this evening.

MARRIED.

Bleiler—Heltwig.—At the residence of the bride's father, Edmonton, on Thursday, August 3, by Rev. A. Hager, William Bleiler to Miss Jennie Heltwig.

Wherever There's a

BABY

There will be need for many things which we can supply. Infants' Foods—the very best quality, fresh and pure. Teething, Nursing and Baby Toilet Goods of all kinds

WESTERN NEWS NOTES

—Vancouver Province: The application of the closure restricted the flow of aldermanic oratory at the city council meeting last night. Mayor Busecombe announced at the outset that he would not tolerate speeches exceeding two minutes. His enforcement of the rule involved no hardships, especially to the small audience, and the dispatch of business was also greatly facilitated.

—Red Deer News: On Friday evening last Innisfail were the visitors and those who anticipated a tight game were sorely disappointed. The game was a one sided affair from start to finish and resulted at the close of the play in the score standing Innisfail 6 Red Deer 2. Innisfail taken as a whole played with much more judgment and precision than the home team did, and it is a lamentable fact that Red Deer lacks practice. It would be invidious to comment on the play of any particular Red Deer player considering the whole bunch were so deserving of censure.

—A joint committee of the Red Deer council and board of trade, was held in the office of the secretary-treasurer on Tuesday, July 25 to meet Mr. McDonald, managing director of McDonald, Simpson & Co. of Calgary, the agents of Hall, McNab & Co., with respect to the proposal to erect a flour mill and elevator at Red Deer at a cost of \$10,000. It was resolved that in the opinion of the meeting the promoters should receive a free site, exemption from taxation for ten years, a loan of \$10,000 free of interest for ten years repayable in ten annual instalments.

—Vancouver World: Two French medical students, Robert Lamperiere and Nicolas Gerolimo, who have walked more miles than the Wandering Jew, are in the city on a tramp around the world. The boys, who are Norman-French, started from Paris in November, 1903, and have since walked through France, England, Belgium, Spain, Germany, Italy, Australia, Armenia and Russia. In January of this year they landed at Halifax and have since sailed from the eastern terminus to Vancouver over the C. P. R. arriving in the city on Wednesday.

—On Friday afternoon Dr. Denovan held an inquest before a jury of which Mr. H. Meeres was foreman, touching the death of Cotter Colwell, whose remains were discovered on the banks of the Red Deer river. On the 27th of August, 1903, deceased, in company with A. Content and Ed. Ferguson were proceeding down the river with a raft containing stores, etc., and on leaving one of the islands in the river, Colwell failed to board the raft and was left on the island. Afterwards it is supposed he lost his life in making for the shore, his remains being found recently some distance below the island. The jury found that the deceased met his death by accident and that no blame was attached to his companions. Sergi Hetherington had charge of the case.

—Dr. G. E. Morrison the famous Pekin correspondent of the London Times, arrived at Vancouver by the steamer Tarter from Pekin this week, having left the Chinese capital on July 3 in pursuance of cables instructions from the London Times, who had sent the news of the Orient with the customary accuracy for which the London paper is noted, for years. He was one of those beloved when the Powers surround Pekin, and did good work for his paper in the war in which so many nations were involved. In this war, while he did not come within the war area, other than on one or two occasions, he did excellent work for his paper. He and Lionel James, arranged for the steamer Haman and fitted her with wireless apparatus to connect with a wireless station which they established at Wei Hai Wei—an arrangement which scored many successes for the Times in reporting the naval battles of the earlier part of the war, until both belligerents ordered the Haman from the seas.

2000-2001-2002-2003-2004-2005-2006-2007-2008-2009-2010-2011-2012-2013-2014-2015-2016-2017-2018-2019-2020-2021-2022-2023-2024-2025-2026-2027-2028-2029-2030-2031-2032-2033-2034-2035-2036-2037-2038-2039-2040-2041-2042-2043-2044-2045-2046-2047-2048-2049-2050-2051-2052-2053-2054-2055-2056-2057-2058-2059-2060-2061-2062-2063-2064-2065-2066-2067-2068-2069-2070-2071-2072-2073-2074-2075-2076-2077-2078-2079-2080-2081-2082-2083-2084-2085-2086-2087-2088-2089-2090-2091-2092-2093-2094-2095-2096-2097-2098-2099-2100-2101-2102-2103-2104-2105-2106-2107-2108-2109-2110-2111-2112-2113-2114-2115-2116-2117-2118-2119-2120-2121-2122-2123-2124-2125-2126-2127-2128-2129-2130-2131-2132-2133-2134-2135-2136-2137-2138-2139-2140-2141-2142-2143-2144-2145-2146-2147-2148-2149-2150-2151-2152-2153-2154-2155-2156-2157-2158-2159-2160-2161-2162-2163-2164-2165-2166-2167-21

PROVINCIAL PLATFORM

ADOPTED AT THE CONVENTION
IN CALGARYThe Program of the Liberal Party of
The Province of Alberta—How the
Affairs of the Province Should be
AdministeredFollowing is the platform adopted
at the Provincial Liberal convention
in Calgary on Thursday:

1 Resolved that this convention of the Liberals of the new Province of Alberta, having been called for the purpose of organizing a Provincial Liberal Association and consisting of representatives from all parts of the Province, hereby expresses its adherence to those political principles which have ever characterized the Liberal or Reform Party in Canada and elsewhere, and which consist in the conviction (1) that the intelligent opinion of the people is the true and just source of all political power; (2) that the administration of public affairs should be under continued responsibility to the electorate; (3) that the true end of government is the promotion of the welfare of the masses of the people by the creation and preservation, so far as it is possible by the action of the state, of equal opportunities in life for every individual; by the vigorous repression of all encroachments on the rights of the people on the part of monopolistic corporations, by amelioration of the conditions of life and the redress of injustice, by a steady orderly and progressive administration of affairs, and by watchful and continued attention to the wants of those new settlers whose courage, industry and thrift are creating the prosperity of the West.

2 Resolved that this convention adheres to the principle of Provincial rights, and is determined to maintain intact and unimpaired the full legislative and executive authority of the Province of Alberta under the constitution of Canada.

3 Resolved that this convention hereby declares its belief that the government of the new province should maintain an efficient system of common schools in order to meet the wants of the settler, and to extend to the children of all classes of the population an equal opportunity to obtain a good primary education, that this system should receive liberal financial assistance from the government revenues, and that all schools receiving such assistance and supported by taxation should be subject in every particular to the direct and continued supervision, regulation and control of the Provincial department of education.

4 Resolved that in all provincial legislation and administration the desirability of retaining or acquiring control of all provincial franchises should be kept steadily in view, and that while business enterprise should be recognized and promoted in every legitimate way, nevertheless no laws should be passed which would shake the freedom of the people in respect thereto.

5 Resolved that inasmuch as the progress and prosperity of the Province will depend almost entirely upon the development of the agricultural and ranching industries, the provincial government should assist in every possible way, and particularly by the establishment of a system of dairy instruction by encouraging cheese factories, creameries, forestry, and fruit growing, by assisting the farmers and ranchers' associations to improve the breed of live stock of all kinds, by assisting agricultural fairs, by encouraging the full utilization of all farm products, and the preparation of such products for the market in the most condensed and remunerative form, by the collection and dissemination among the farmers and ranchers of the latest and fullest information as to the best available markets, and by extending to them every legitimate assistance in reaching those markets with the least possible loss of profit through excessive freight rates or the intervention of middlemen.

6 Resolved that this convention is in favor of a strong, economical and business administration of public affairs with prompt attention without unnecessary routine to the rights of the people in all parts of the Province.

7 Resolved that inasmuch as the true development of the Province and the prosperity of its citizens depends in very large measure upon the enjoyment of proper facilities in all parts of the country for easy access to markets, and inasmuch as the rapid influx of population and the establishment of new settlements render it impossible and also unwise that the new local improvement districts with their limited powers of taxation should be called upon to

provide such facilities without material assistance from provincial revenues, therefore this convention declares its belief that the Government should adopt without delay a vigorous and practical policy of bridging the most important streams and of maintaining a first-class system of main thoroughfares to all market towns, the cost of which should be largely met out of the public funds of the Province.

8 Resolved that inasmuch as the Province westward of the Great Lakes are peculiarly interested in the establishment of a new route to the Atlantic coast, and inasmuch as the creation of two new Provinces out of the North-West Territories gives the first opportunity for co-operation with this end in view, therefore this convention is of the opinion that the earliest possible steps should be taken to secure joint action by the Governments of Manitoba, Saskatchewan, Alberta and British Columbia, in order to ascertain definitely and finally the feasibility of the Hudson Bay route as an outlet for our commodities and to decide upon the best method of constructing a railway by that route to the water, whereby the long land haul may be diminished by one half and the ocean voyage to European ports also materially decreased.

9 Resolved that this convention recognizes the great importance of the milling industry in the commercial life of this province and believes that the provincial government should foster and encourage this industry in every possible way.

10 Resolved that this convention regrets the necessity which existed for the introduction into the Alberta Act of a clause containing the exemption of railway lands from taxation; that this convention is in favor of the government urging upon the Federal authorities the advisability of removing this restriction at as early a date as possible.

11 Resolved that this convention believes that the new Provincial Government should take the earliest possible steps to induce the Federal Government to set aside a sufficient part of the public domain as a permanent endowment for a Provincial University and an Agricultural College in connection therewith.

12 Resolved that inasmuch as the revenues provided for the Province under the Alberta Act are sufficient to meet all the present requirements of the Province and are subject to large increases from time to time in proportion to the growth of our population, this convention declares its belief that there should be no immediate necessity to incur any provincial public debt or to pledge, alienate or hypothecate the assets of the Province to meet any real public need.

13 Resolved that in all the municipal legislation of the Province the Government should be careful to give full opportunity to municipalities to retain or acquire control of all public utilities whenever they desire to do so and to protect them in every possible way against the encroachments of private corporations.

14 Resolved that this convention hereby expresses its belief that in the establishment of all public institutions and the erection of all public buildings due attention should be paid to the requirements of all parts of the province, and that in selecting locations for the same the government should consider the public convenience and the quick despatch of business.

15 Resolved that this convention believes in the vigorous administration of justice by a firm enforcement of the criminal law, and a simple and prompt method of protecting civil rights.

A full report of the convention will be published in Monday's issue.

POUND BY-LAW AGAIN**DEPUTATION WAITSON COUNCIL****A Proposition for a Stove Foundry
Made to the City—The Question of
A Public Park up Again**

The city council met last evening. Present, the mayor and Aldermen May, Clark, Fraser, Griesbach, Boland.

The minutes of last meeting were read and adopted.

Mr. Wm. Short addressed the council upon the Mechanics Institute. Efforts had been made to get subscriptions, but at present it was not in a very flourishing condition. The Institute had decided sometime ago to hand over the reading room to the city, and he was present to formally hand over the same to the city. He said the reading room was serving a good purpose and he would commend it to the care of the council. The Institute would discharge all their liabilities and hand it over free of debt in answer to a question of Alderman May. Mr. Short said the annual expense of the reading room would not exceed \$200. Mr. Kennard said he thought there were some subscriptions due upon papers received.

It was moved by Alderman Clark, seconded by Alderman May that this council take over and maintain the public reading room provided it is handed over free of all liability. Carried.

Mr. D. Crichton, of Lethbridge, then addressed the council upon a proposal to establish a stove foundry in the city. He asked for a free site for the same, agreeing to invest \$15,000 to \$20,000 in the business. Alderman Clark stated he was opposed to any form of bonus. If there was an opening for a foundry it would come. Alderman Fraser said he had the opposite view; he was in favor of encouraging industries to come to the city. Alderman Griesbach said he would like Mr. Crichton to make a definite proposition in writing. Alderman May said he was not in favor of housing in general but would give this matter consideration if properly presented to the council and he moved that the matter be referred to the commissioners to get information and present a definite plan to the council. Alderman Fraser seconded the motion. Alderman Bellamy favored the motion. The Mayor said it was rather an unfortunate time as the city was now granting \$2000 for a celebration and was voting on several money by-laws. The motion carried and Mr. Crichton is to meet the commissioners today.

The petition in the pound by-law published in yesterday's Bulletin was read. A large deputation was present to support the petition. Mr. Wagner said boys drove cows to the pound and were paid by the pound-keeper. The Poundkeeper declared that he did not receive cows from any one not entitled to bring in the same. Rev. A. Hager said he had paid some \$15.75 as pound fees himself. His German friends in many cases could not get pasture and he thought the same privileges should be given them as to residents on the flats. One ratepayer said he was threatened by the herdsmen that his cow would be first in the pound and it was. The matter was discussed at some length. On motion of Alderman Clark and May the matter was referred to the by-laws and special legislation committee for investigation and a report on the question.

The auditor's report for 1904 was then presented and upon the recommendation of expert auditor Neff was received and ordered to be printed. Mr. Neff addressed the council. He said as there was no question as to the safety of the cash he thought the report should be printed at once so the city could sell its debentures. He said he was going over the differences between the auditor and secretary-treasurer which were matters of point of view rather than questions of accuracy. As far as he had gone he believed he would differ with both in some particulars. He was going into the whole matter very carefully taking complete notes and would write his report from Toronto. He expected to leave for the east on Wednesday. He was consulting with the secretary-treasurer and would recommend a simple and easy system of keeping the city's accounts. He said this was going to be a great city and it was very important that it should have the best possible system for keeping its accounts. He also recommended that the council spend one evening a year going carefully over the financial statement that they might become more conversant with

FOUND BY-LAW AGAIN

Continued from page four.

the financial affairs of the municipality.

Mr. Alex. Butchart, secretary of the Public Hospital presented an account for attendance on Dr. Tatlock in the hospital. The bill was \$15 for attendance last spring. He is in the hospital again now and seems to be unable to pay.

(In motion the matter was referred to the sanitation and relief committee to report thereon.)

A petition was read from W.S. Weeks and Co. asking that the streets, 30 Thirteenth to sixteenth north of Jasper Avenue in the west end be brushed out.

On motion of Aldermen Clark and Griesbach it was decided to cut out 30 feet in the centre of said streets.

The Veterinary Inspector reported that the nuisance grounds be fenced to keep cows from the rubbish. On motion of Clark and Griesbach it was decided to have it fenced.

A petition was granted for the grade of Fifth street from Makays to Saskatchewan Avenue by local improvement tax at a cost of \$222.

The question of the erection of a bridge across Hart Creek at First street was discussed at some length. Finally on motion it was referred to the streets and parks committee to report thereon.

On motion of Clark and May the grant of \$8000 to the Inaugural committee made at the special meeting on July 31st, was confirmed.

On motion of Clark and May the following accounts were ordered to be paid if properly certified.

	\$2,988.16

Alderman Griesbach suggested that the chief of the fire department should be supplied with two uniforms—a coarse uniform for everyday work and a better one for other purposes. On motion of Aldermen Griesbach and Clark it was decided to purchase uniforms for paid members of the brigade.

An informal discussion took place on the question of providing parks for the city. The opinion prevailed that the matter should be taken up at once, else the chances for securing desirable property would be lessened. Alderman May suggested that if arrangements could be made with the Methodist mission for a lease of the property in front of the church sloping over the hill, that it could be beautified for a reasonable expenditure and would make a very nice breathing place in the heart of the city.

TENDERS

Tenders for the erection of the Bank of Montreal, Regina, from the ground floor level, will be received up to 5 p.m. 26th August, at the offices of W. M. Dodd, Architect, Calgary and Regina, where plans and specifications may be seen and all information obtained.

All tenders to be accompanied by an accepted cheque on a chartered bank, for 5 per cent. of the amount of tender, which will be forfeited should the contractor fail to enter into a satisfactory contract, or should he fail to complete his contract. In a satisfactory manner. Cheques will be returned to unsuccessful contractors.

The lowest or any tender not necessarily accepted.

Revillon Brothers

I have studied the making of cigars all my life and I know just what style of rolling makes the best smoke.

I have taken the young men of Granby and taught them to make cigars my way—and I watch them to see that each cigar is made that way. If I made every one of my Pharaoh cigars myself they couldn't be more carefully or more perfectly made.

The result is that my

Pharaoh Cigar

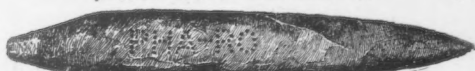

is not rolled so tight that it draws hard or so loose that it burns badly—just the right amount of filler, properly held by the binder, and finished with the wrapper so it smokes freely and burns evenly.

The test of a cigar is the smoking of it, and I am sure after trying my cigar you will agree with me that it is an excellent smoke.

Every genuine "Pharaoh" cigar is branded "Pharo."

WESTERN NEWS

—Winnipeg Tribune: "The wheat crop of the North-West Territories will be moved this year as early as Manitoba's. This northwestern harvest is generally about two weeks later than the province and this expectation is an evidence of the very advanced condition of the grain." J. A. Macgregor, assistant superintendent of our service of the C. P. R., made the above observation after a thorough tour of the wheat belt. The advanced state of the grain is not localized, but prevails everywhere through the Territories. Many minor conditions have contributed towards this favorable growth but the chief agent was the splendid growing weather the northwest country has enjoyed this season. Though the rains have not been so heavy as in the province, there have been frequent showers with an abundance of sunshine.

—Carlton Star: "Who was Juniper?" was the inquiry around Cardston when our second storm had gone by. On Tuesday night, we had another visitation of bad with a deluge of rain seldom equaled. The storm broke about an hour later than the first night but with greater fury. It descended a little further west this time picking up several crops west of town, that escaped the first squall and added to the list of losses, we are sorry to record, the total destruction of the crops of Messrs. Low, Barber, Woods, etc., the storm blowing on much the same course as that of the night before, running over the same crops and just missing the others as before. In this track nothing is left. When the storm struck the town it was at its height, and when you ask a Cardston man what a good hailstorm is like he can describe it. First there is a slight spitting, then a pop or two, then a rap at the clapboards, then a rat-a-tat-tat, then a rattle as if a thousand bullets were beating the building, till it mounts into a deafening roar. The lightning flashes, your wife grabs the baby and goes into hysterics. Ping, goes a bullet on the window. Pong comes a bigger hailstone and a shower of glass lands on the floor. Crash, goes a whole pane as two or three big hailstones strike at once. Two or three crashes and the glass is extinct and big hailstones bounding around the room, with the rain coming in in torrents. If you have a cupboard with no window in it crawl in and sleep till the damage is over. A cyclone cellar imported from Kansas is no good, for it fills with water and you may drown.

TENDERS

Sealed tenders to cover all works, except heating and plumbing, will be received up to August 10th, 1905, at the office of the chief engineer, Canadian Northern Railway, Winnipeg, for the erection and completion of a brick and stone station building to be erected at Edmonton for the Canadian Northern Railway Company. Also tenders for a ten stall engine house at Edmonton and frame station building at Fort Saskatchewan. Plans and specifications may be seen at the office of the chief engineer, Winnipeg, Man., or at the office of the superintendent, Canadian Northern Railway, Edmonton. The lowest or any tender not necessarily accepted.

Ross Bros. Limited

ROSS BROS., Limited, are the Sole Agents in Edmonton for the Celebrated

Peters' Pump

Peters' Double Cylinder Force Pumps

The annexed cut represents our Double Cylinder Force Pump. This is positively the easiest working and most durable pump on the market. Its capacity is far greater than any other pump; and for a stock pump it has no equal. This pump is constructed with two solid brass cylinders and each one working independently, discharge their full capacity at every upward and downward stroke of the handle; therefore our pump will discharge twice as much water as any other pump with half the amount of labor. Its ease in operating is based on the fact that it has two rods, one on each side of the pipe, and the one balancing the other overcomes all the hard labor in pumping water. A four-year-old child can easily operate the pump at a depth of 50 feet.

Its durability is far superior to any other pump for the following reasons:

1 It has solid brass cylinders which do not wear out the leathers.
2 The cylinders being at the bottom of the well never lose their priming.

3 It has chilled valve seats which neither rust nor wear.

4 The leathers used for plungers and check valves is the very best obtainable.

5 It has no stuffing boxes.

6 The cylinders are stationary, working nothing but the plunger rods.

7 It having double the capacity of any other pump, requires but half the labor.

8 The pipes and rods used are all galvanized.

This pump can be fitted for six-inch bored wells with our special double cylinder.

We keep this pump in three different sizes as follows: 3 1/2 in. cylinders for 1 1/2 in. pipe, for stock wells up to 25 feet deep. 3 in. cylinders for 1 1/4 in. pipe, for stock wells up to 35 feet deep. 2 1/2 in. cylinder for 1 1/4 in. pipe, for stock wells up to 60 feet.

The capacity of our double cylinder pump is as follows: 3 1/2 in. double cylinders, 1200 Gal. per hour. 3 in. double cylinders, 1000 Gal. per hour. 2 1/2 in. double cylinder, 700 Gal. per hour.

In Woven Wire Fencing we handle the well known LAMB FENCING.

The Fence is made from the best hard steel galvanized wire, and is kept in 20, 30, and 40 rod rolls in sizes 24", 30", and 50" high. Any person can stretch this wire into place, and its staying qualities will withstand the greatest strain that can be brought against it. In its weaving it is expanded to its greatest tension, consequently it will not contract or expand on the posts. We also have it in ornamental style for iron fences, gates to match.

MALTHOID ROOFING

Not expensive, though best in quality. Absolutely weather-proof, always ready for instant use. Requires no paint—nothing but a hammer to lay it. Tin caps, nails and cement for seams furnished without extra charge.

Write for illustrated booklet, gladly mailed upon request.

THE Paraffine Paints Co.
MAKERS OF SATISFACTORY ROOFING

24 SECOND ST., SAN FRANCISCO, CAL.

OUR MALTHOID ROOFING

is giving splendid satisfaction wherever used.

It is easily put on. Is a sure water shedder, and anyone can put it on. No expensive tools needed, just a hammer, that's all, as the nails, caps and cement go with every roll. It is put up in rolls of two hundred square feet (2 squares to the roll) and we keep it in one and two ply. Some of the best buildings in Edmonton are covered with this roofing.

COAL IN ALBERTA

By James Watson, of the Banner Coal Mine, Sturgeon, Alta., in the Northwest Farmer.

Much has been said and written recently about the famous Edmonton district. Its soil, its climate and future prospects have all received due attention. That its future prosperity is an assured fact no one can now deny, if the number of home-steads that are being taken up and the general activity that is seen on every hand are anything to judge from. "Facts are chieftains that win a ding," said Robert Burns; and if the aforementioned facts are any indication of progress in this north-west country, then Edmonton is in the van. No one who has seen this part of Canada can dispute its wonderful adaptability to agriculture in its various branches, for here again we are confronted with facts.

But the question may be asked: "Does agriculture alone ever make a great city or for that matter a great nation?" It has been said and truly, that agriculture is the backbone of a nation; but backbone is not everything. There are other things just as important to a living organism. If we may carry the metaphor a little farther; nerves, for instance, which in a community are represented by systems of communication; circulation, which corresponds with transportation; and power, without which the addition of agriculture can be better imagined than described. True, these three factors are not indispensable to the industry. Present day conditions, however, make them a necessity, for the obvious reason that there are others in the competitive race besides ourselves, and it is imperative that we be on an equal footing with them, if we would keep our place in the world's markets. This is the age of machinery and mechanical contrivances, and if we read modern history we shall find that just as a nation begins to manufacture these commodities, she rises in national status and financial wealth.

Now this is where Edmonton is found wanting. Of manufacturing she has as yet scarcely any. The reason for this is not because the raw material and the power is unobtainable; they are both within reasonable distance; in fact the power, in latent form is lying under her very streets. This power, of which she has an unlimited supply, will one day make Edmonton one of the greatest manufacturing centres in the Canadian Northwest. All that is required is better transportation facilities to supply the raw material and distribute the manufactured product; and when the new railways that are converging on her are open for traffic, the way will be clear for unlimited industrial development.

But someone may ask, "What is this mysterious power that Edmonton possesses?" The answer is, her coal fields. Her fertility is not confined to the surface, for underneath her fields of waving grain there lies an almost inexhaustible supply of coal of the richest quality. Seams of coal have been found all over the country within a twenty mile radius of the city, varying in thickness from three to twenty feet. The upper seams can be seen cropping out on the sides of coulees or ravines, where they are easily accessible; and as far as they have been proved, they are of uniform thickness, free from faults and horizontal in position, which allows them to be worked at a minimum of expense. Several of these seams are extensively developed on the banks of the Saskatchewan and Sturgeon rivers.

At present the chief means of transportation is the river, on which the coal is taken to the city in barges during the summer and on sleighs in winter when the river is frozen over. But this may all be changed some day; for when the projected electric railway is established, it is intended to put it in direct communication with the coal mines.

Although last winter was an extremely mild one, there was nearly sixty thousand tons of coal mined in this vicinity. I am neither a prophet nor the son of a prophet; but I say that at no distant date these figures will be dwarfed into insignificance; for when the iron horse appears, and towns and villages spring up in its track with machine-like rapidity, there will be an enormous demand for fuel, which the treeless prairies will be unable to supply, and, besides this, the intelligent farmer is beginning to discover that he saves time and money by burning coal instead of wood.

—Prince Albert Advocate: The recent sale of the city thirty-year 4 1/2 per cent is one of the best, if not the best tenders which have up to the present, been made to any northwestern town. The slight discount makes the annual interest payable \$4.63 on \$100, while other communities realize about 5 per cent for their five per cent.

POTTER & McDOUGALL

LOCAL

—H-O-T-T-E-R.—
 —Edmonton celebrates Sept. 1st.
 —The cricket team went to the Port this morning to play.
 —A large camping party of young people went to Sandy Lake today.
 —Reports from the country indicate that the hay crop is abundant.
 —The choir of McDougall Methodist church are having a picnic at Sandy Lake today.
 —Four cases came up in the police court this afternoon, one to recover wages, one damage to property and two for assault.
 —The River of God is full of water, will be the subject of Pastor McDonald's address at Sunday evening at the Baptist church.
 —Tuba Bros. orchestra and the Apollo orchestra have amalgamated under the name of Apollo orchestra. Thomas Irving is director and Lorne York manager.
 —Mrs. E. B. MacMishon accompanied by her sister and daughter is expected in the latter part of the week. They have been spending a few days at Regina on their way from the East.

—Four Saskatchewan have offered a purse of \$50 for a lacrosse match at the fall next week between Strathcona and Edmonton teams. The Strathcona team was unable to play.

—Dr. Clendenen has made arrangements for at least three polo teams to play in the city on September 1, one from Buffalo Lake, one from Calgary and one from either High River or Cochrane.

—Candidates who were successful at the recent teachers' examination, and who desire entering the Normal school for the August session are advised to forward their applications at once to the Department of Education at Regina.

—The Canadian Bank of Commerce in Calgary estimates that 863,000 bushels of fall wheat will be harvested within delivering distance of the seven stations south of High River, and in the Calgary and Macleod districts between 1,500,000 and 2,000,000 bushels will be produced this year.

—At the council meeting last night there was considerable discussion as to the poundkeeper's right to hire boys to help him drive cows to the pound. The second sentence in clause of the Pound Bylaw, reads, "Each of the poundkeepers shall furnish all his own assistants, and defray the salaries or remuneration of such assistants out of his own proper monies."

—"Uncle Tom's Cabin" moving pictures, four new specialty artists, in addition to some of the favorites and an enlarged dramatic company, to present the lively comedy success "Only a Soldier Boy," are among the attractions at the rink theatre to-night. Miss Mathies has done everything possible to make this her farewell performance in Edmonton a success in every respect. The play is a tried success, and is said to be one of the most pleasing productions in every respect that the company has put on.

—Permits for building to the value of \$18,750 have been issued this week as follows: P. Holmbeck, brick dwelling on Third street west to cost \$5,100; Percy McCollum, frame dwelling on Boundary avenue to cost \$800; J. R. Umbach, addition to dwelling on Nampa avenue to cost \$750; James G. Entwistle, frame dwelling on Twelfth street west to cost \$2,400; Philip C. Engel, frame dwelling on Eighth street west to cost \$1,000; John A. Cameron, frame dwelling on Fifteenth street west to cost \$800; Mr. Thompson, of Hudson's Bay Co., frame dwelling on Eighth street west to cost \$1,000; Haller & Aldridge, brick extension to their place of business on Jasper avenue to cost \$2,000; Henry Gilbert, frame dwelling on Fifth street west to cost \$1,000; S. J. Beales, frame dwelling on Fifth street west to cost \$2,500.

PERSONAL
